

# Disc Harrow

## AgSafe Safe Work Procedure

1. Steer clear of objects which could dislodge you from tractor seat
2. Never reach when on the tractor. All adjustments should be made before getting on
3. Block all elevated parts when working on discs
4. New discs can be sharp wear gloves when handling discs
5. Ensure awareness of all power lines Maintain a safe distance from them
6. Release Hydraulic pressure carefully (remember pressure increases as the sun heats up the equipment)
7. Beware of springs, they are under high tension

Please use the following **Safe Work Procedures** as a guideline to building your own safe work procedures.
