

Grain Equipment

AgSafe Safe Work Procedure

AUGER BUCKET

1. People should never be allowed to ride in the bucket
2. Lower bucket to ground or block it prior to servicing or disconnecting hoses from the tractor

GRAIN DRILL

1. Never allow riders while seeding
2. Never attempt to clear plugged runs or channels while moving
3. Lower the drill and “lock it out” prior to maintenance
4. Utilize transport equipment provided including blocks and wedges

GRINDER MIXER

1. Excessive dust may cause breathing difficulties
2. Wear required respiratory protection for the particular task

Please use the following **Safe Work Procedures** as a guideline to building your own safe work procedures.
