

# Hammers

## AgSafe Safe Work Procedure

- 1) Eye protection must be worn at all times while using a hammer.
- 2) Do not use a hammer that has a cracked or broken handle.
- 3) Do not paint wooden handled hammers as this could hide cracks or other defects.
- 4) Prior to using the hammer check and ensure that the head is securely fastened.
- 5) Prior to starting the jobs make sure that the work area is free of debris.
- 6) When finished with the hammer make sure that it is put away in a location that is off the floor so as to not cause a tripping hazard.

Please use the following **Safe Work Procedures** as a guideline to building your own safe work procedures.
