

Mower

AgSafe Safe Work Procedure

1. Ensure that you are seated properly to prevent falling from tractor
2. Maintain clear vision ahead and clear any hazards
3. Watch for foreign objects in tall grass, crop, weeds or bush. Propelled objects (stones or debris) can cause injuries at long distance
4. Ensure the PTO is disengaged prior to starting the tractor
5. Disengage PTO prior to dismounting the tractor remembering that the blades continue to be in motion for a period of time after PTO is shut off
6. Keep hands and fingers away from the knives or cutter bar
7. Handle cutting edges on back side away from knife edges
8. Never walk behind a hay conditioner when the rolls are running
9. Shut off PTO prior to any attempt to clean clogged rolls cutter bars or perform any maintenance
10. Use mowers only for manufacturer designed purposes

Please use the following **Safe Work Procedures** as a guideline to building your own safe work procedures.
