

Tillers & Tillage Equipment

AgSafe Safe Work Procedure

1. Maintain forward vision and clear all overhanging hazards. Spills from tractor are a real hazard that can put you in the path of the tiller
2. Disengage the PTO prior to starting the tractor and before getting off
3. Ensure all blades have stopped before attempting any servicing
4. Use tools or hand protecting when cleaning out the debris
5. Block the tiller when in the “Up” position
6. Never attempt to make adjustments or over reach from the operating position on the tractor

Please use the following **Safe Work Procedures** as a guideline to building your own safe work procedures.
