

Rotary Saw

AgSafe Safe Work Procedure

- 1) Wear eye protection at the minimum use C.S.A. safety glasses
- 2) Wear hearing protection, if performing a small number of cuts use insert ear plugs, if working steady all day you should wear ear muffs.
- 3) Prior to operating the saw ensure that all of the manufacturer's guards are in place and operational. Also ensure that they have not been altered in any way.
- 4) Prior to plugging in the saw check the cord for any damage that could cause an electrical shock
- 5) Ensure that the work area is free of debris so that nothing can be kicked back at you by the saw blade
- 6) Always operate the saw with both feet firmly on the ground
- 7) Always make sure that you are cutting away from yourself at all times
- 8) Never set the saw down until it has completely stopped running
- 9) When not using the saw ensure that it is unplugged

Please use the following **Safe Work Procedures** as a guideline to building your own safe work procedures.
