

Step Ladders

AgSafe Safe Work Procedure

1. Use only C.S.A or ANSI approved ladders.
2. Do not use ladders that appear unsafe, have broken or damaged steps or cracked side rails or damaged hardware.
3. Do not paint wooden ladders as the paint may hide cracks and other defects.
4. All portable ladders must have safety non-slip shoes and they must be in the proper position. (not on end)
5. Place all ladders on firm level ground to avoid the possibility of tipping over.
6. Protect ladders in doorways or passageways from being bumped or knocked over.
7. Do not reach out from the ladder more than one arms-length.
8. Do not use the top two steps of the ladder or the material tray to work off of.

Please use the following **Safe Work Procedures** as a guideline to building your own safe work procedures.
